

COMMONWEALTH OF DOMINICA  
OVERSEAS

# ANNUAL OVERSEAS TRADE REPORT

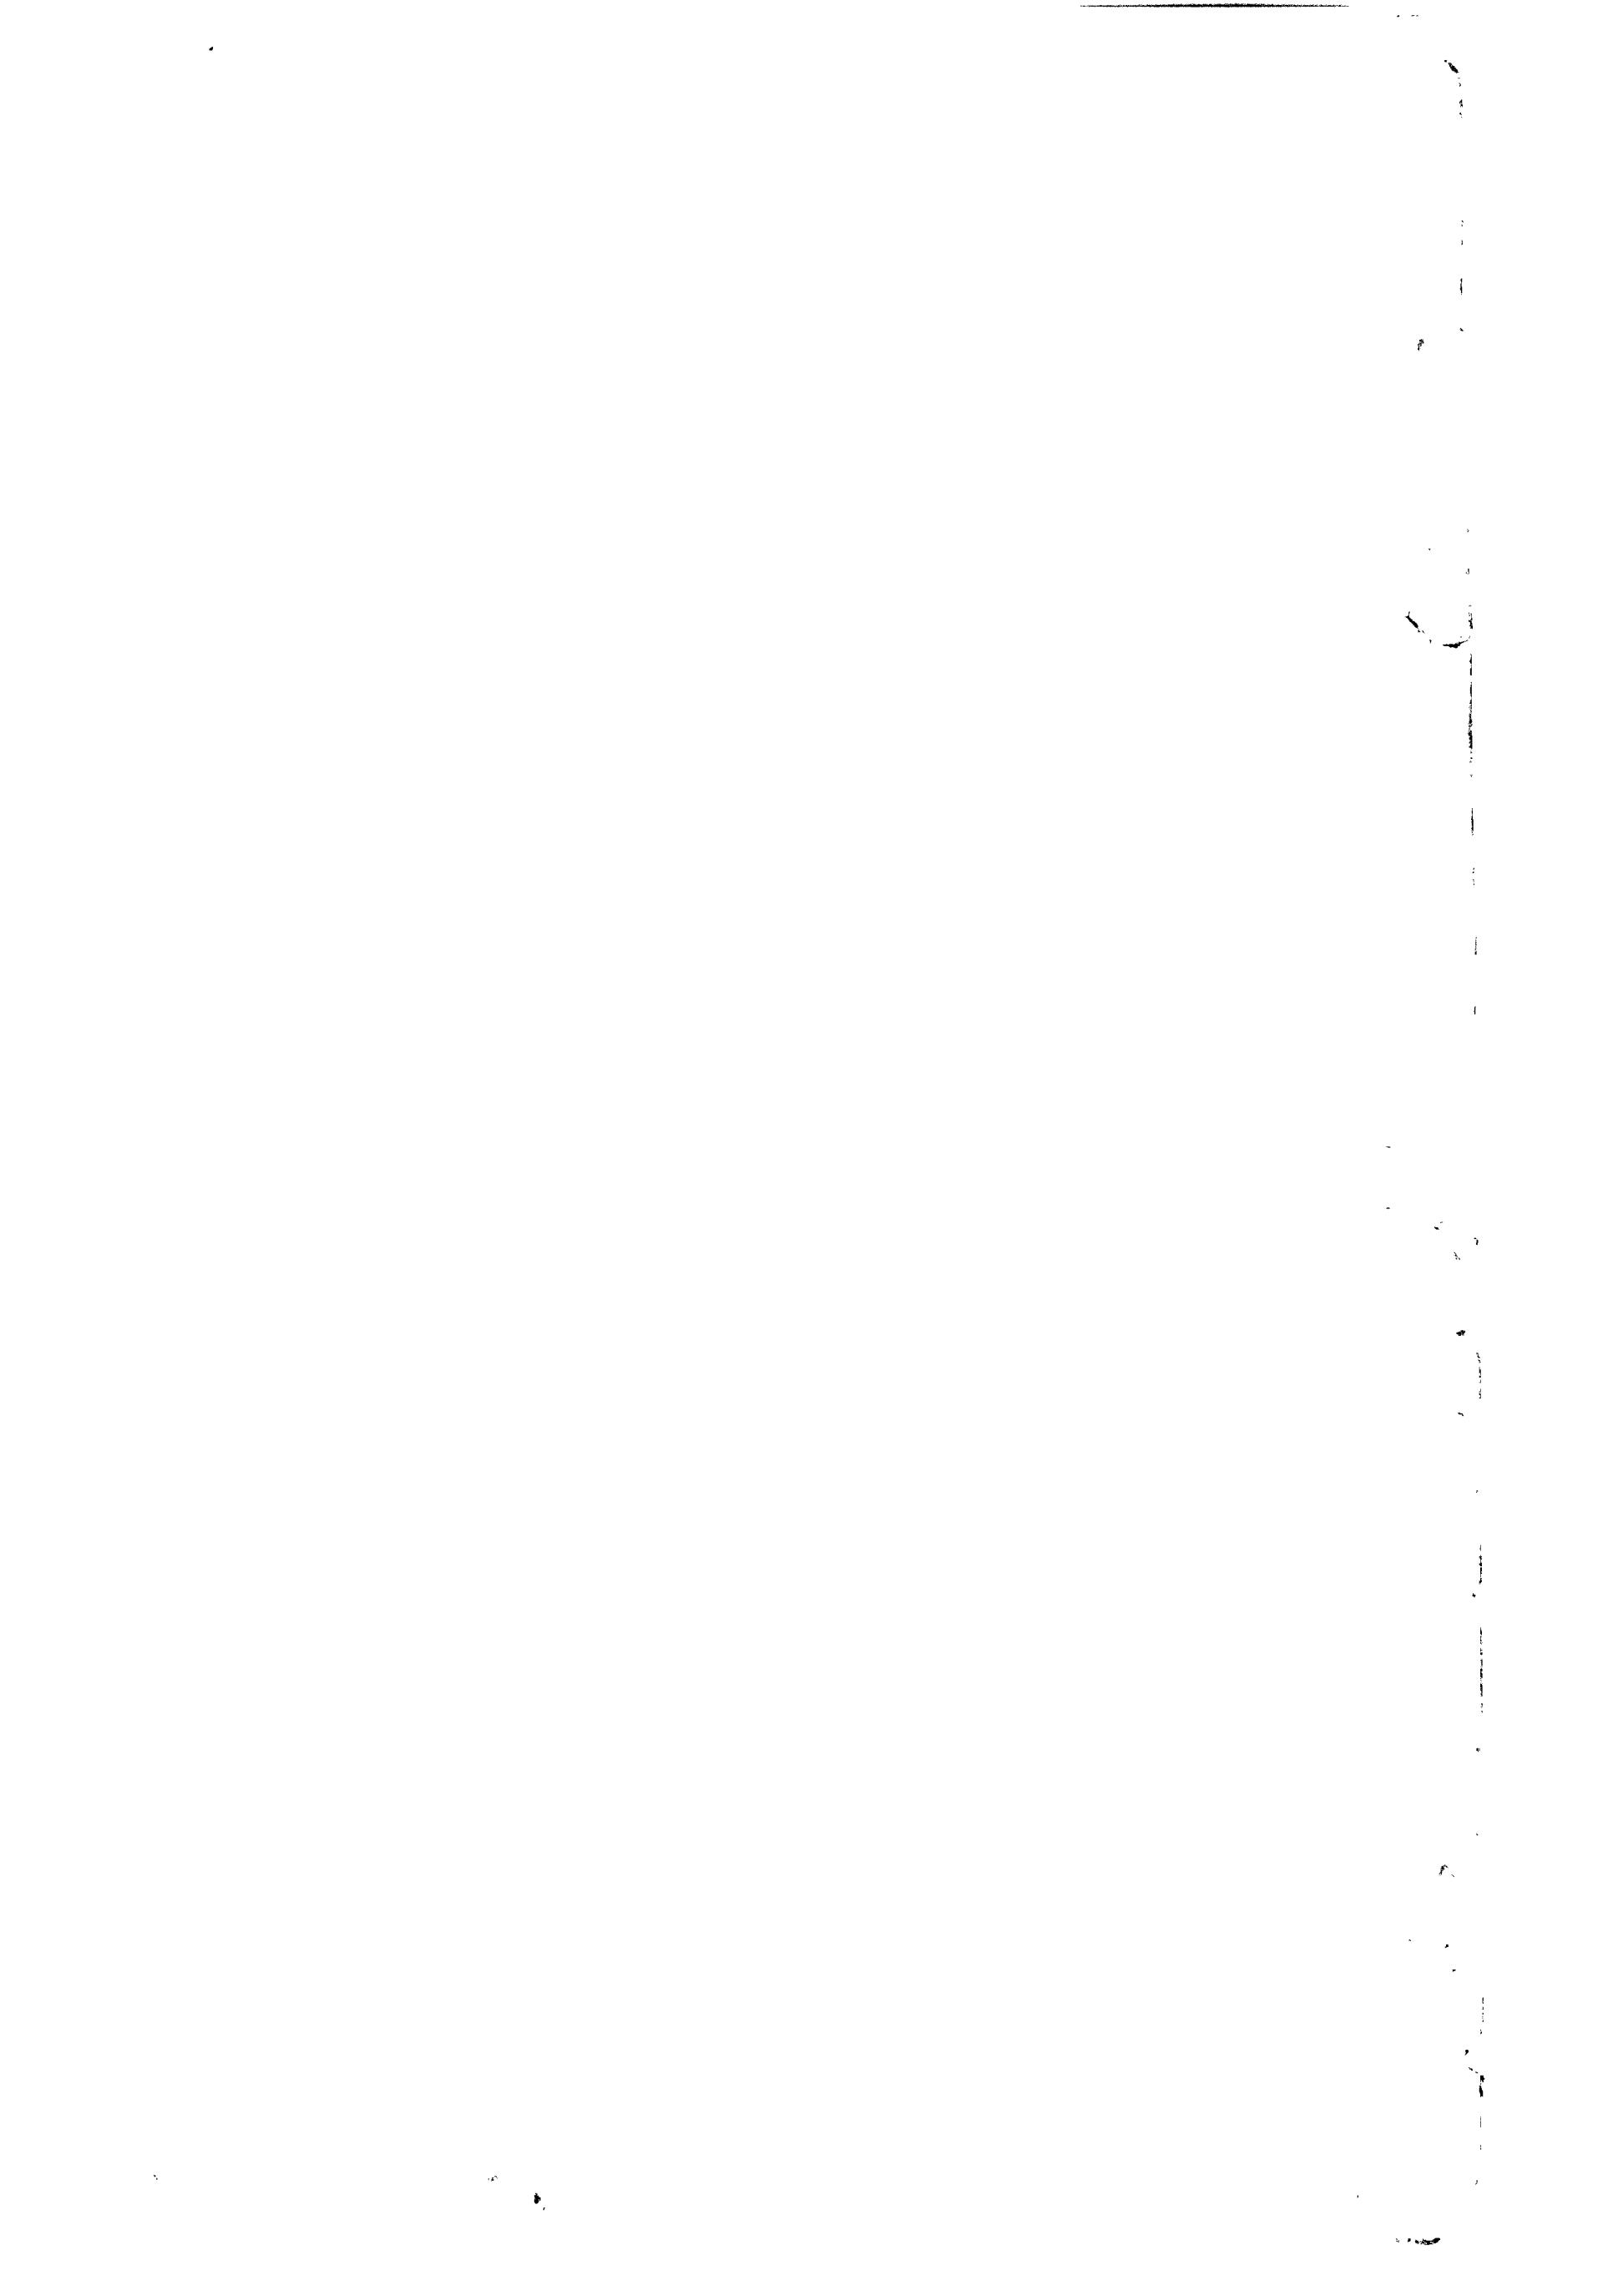

FOR THE YEAR

1977

ISSUED BY

THE MINISTRY OF FINANCE

PRICE \$6.00

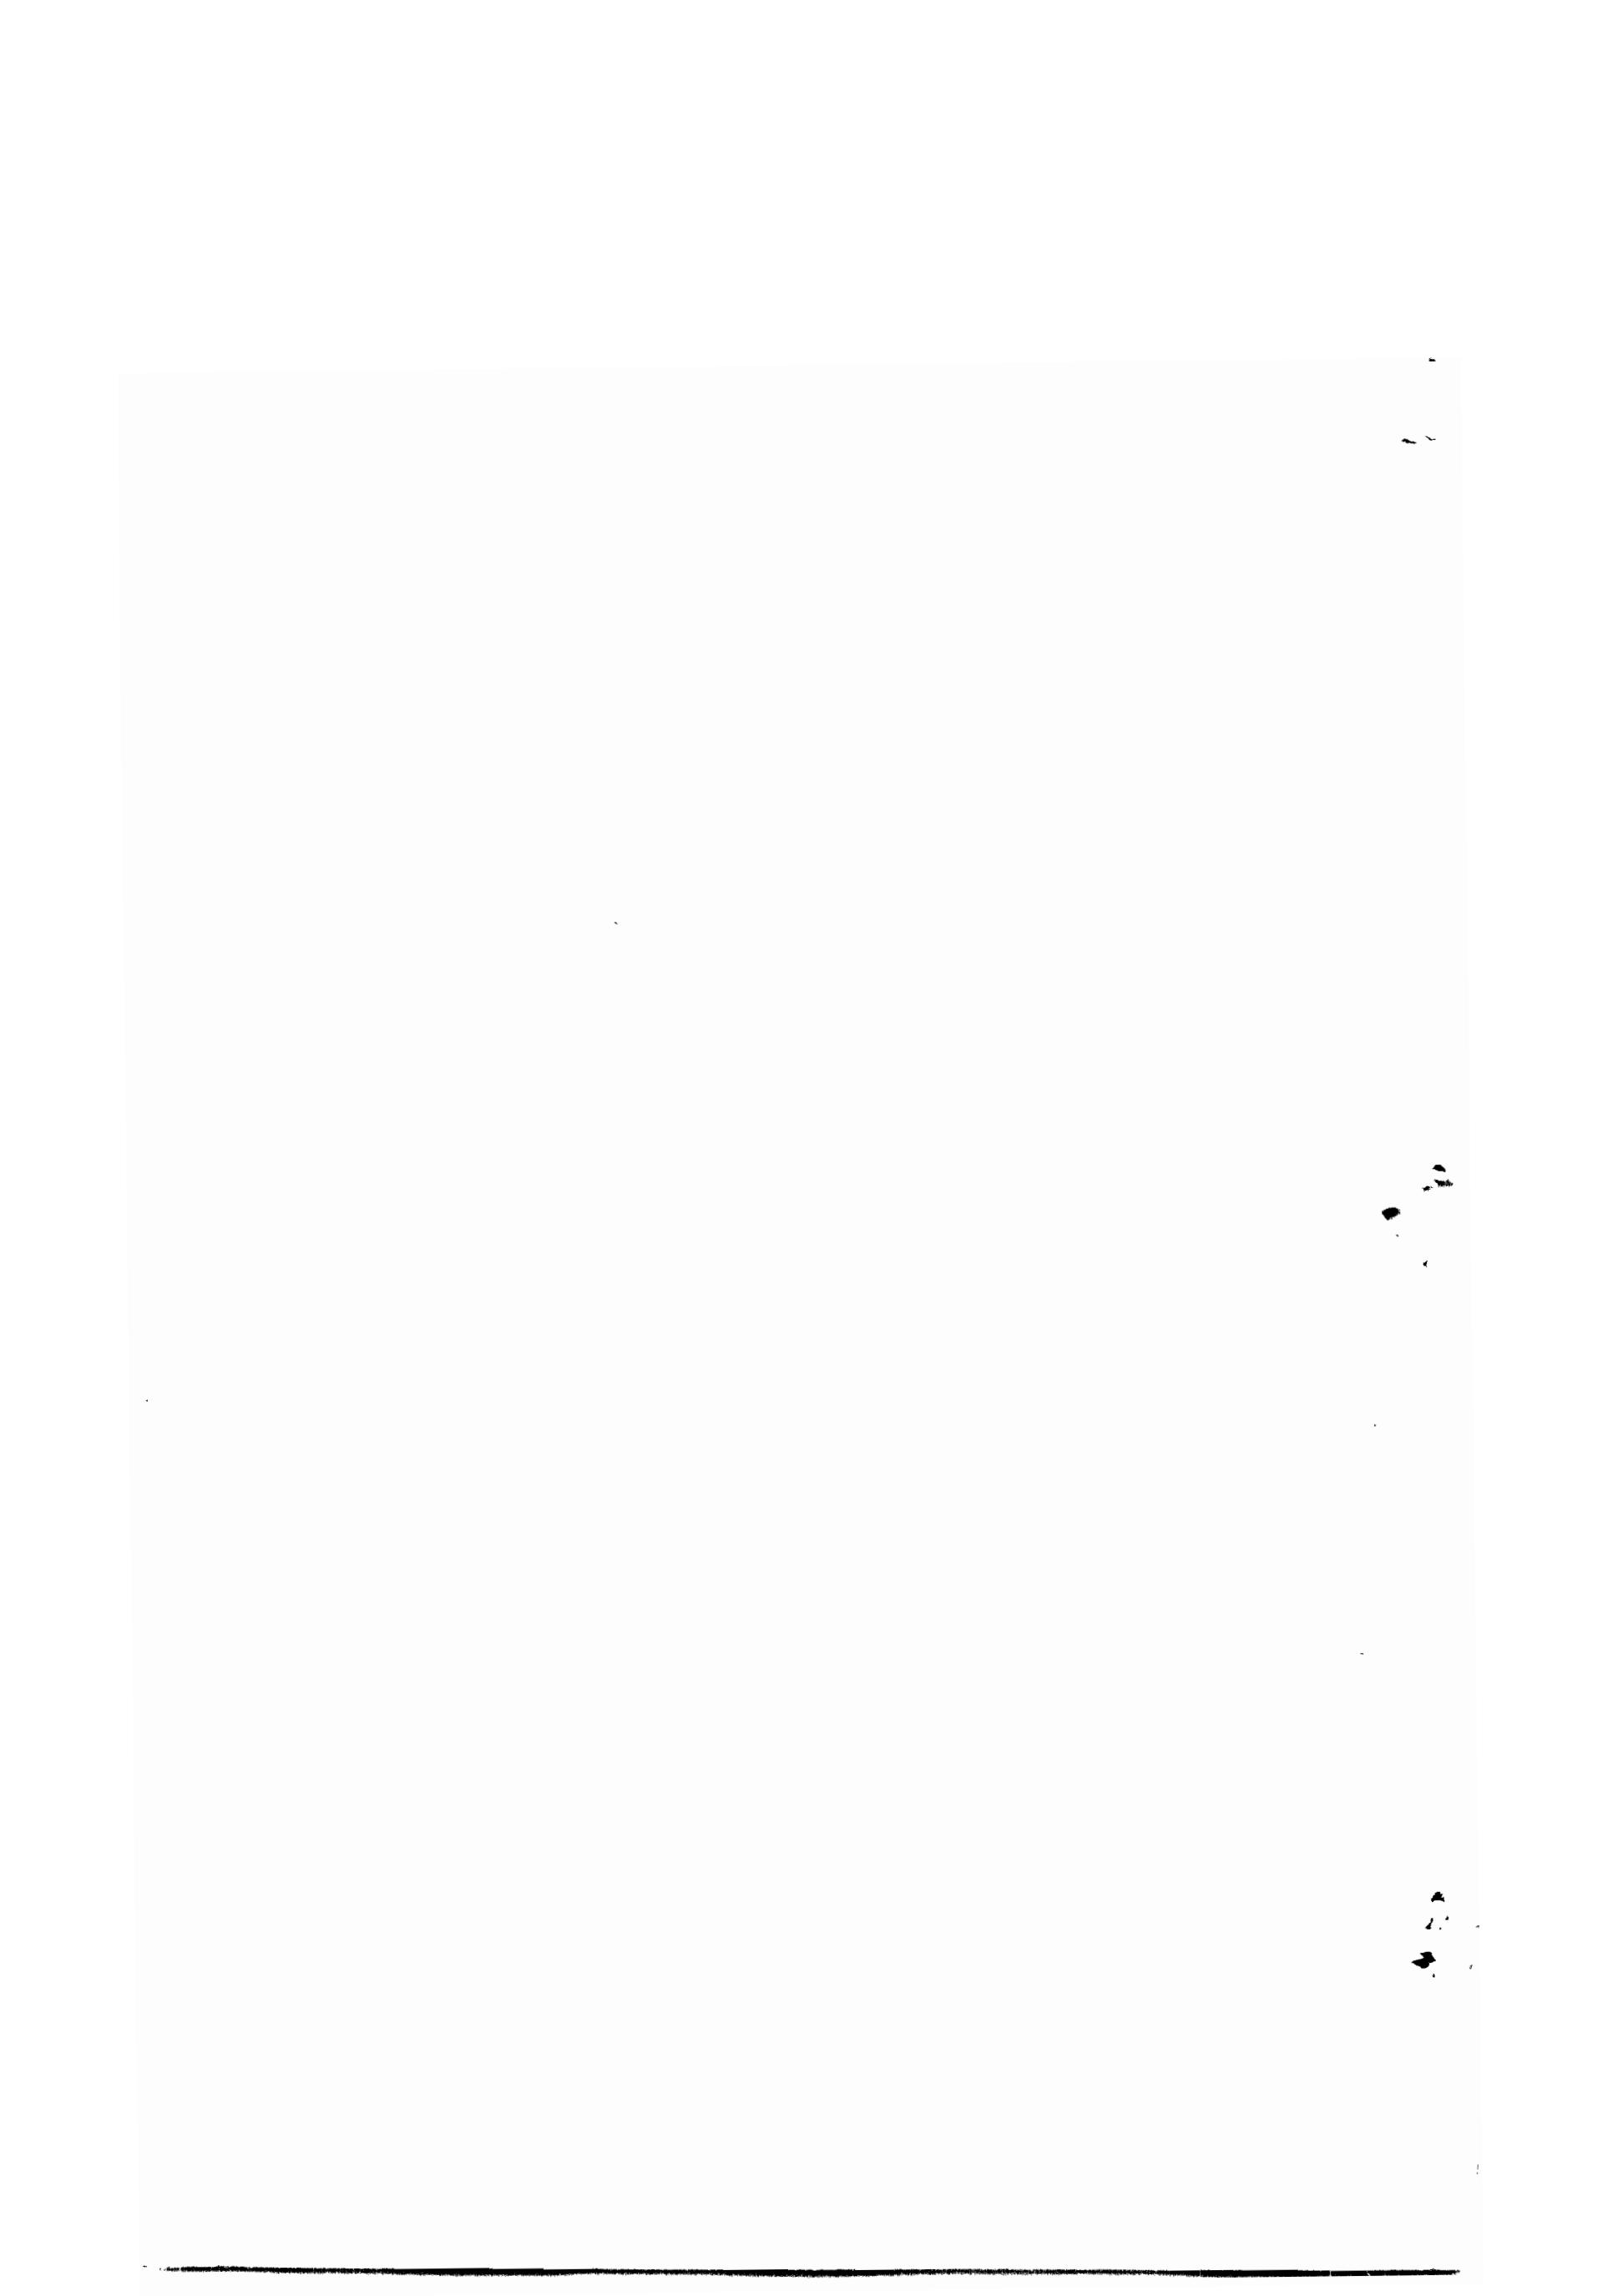

I. INTRODUCTION

The Annual Overseas Trade Report 1977 is the first such document published since 1969. It is intended to be followed by regularly published Annual Reports on the external trade of Dominica.

The figures published in this Report have been fully revised and should be regarded as final.

The Government of Dominica is deeply grateful to the Printing Unit of the UNDP/ECCM Project for Development of Statistical Services in the Eastern Caribbean for the services rendered in printing this Report. Mention should also be made of the Comptroller of Customs and his Staff; as well as the Dominica Computer Centre without whose excellent co-operation this report would not have come into being.

## II. EXPLANATORY NOTES

### 1. SYSTEM OF TRADE CLASSIFICATION

The Standard International Trade Classification (Revised) issued by the Statistical Office of the United Nations as statistical papers Series M. No. 34 of 1961, has been adopted since 1973 with suitable modifications for the classification of all merchandise. The main sections of the SITC(R) are:-

#### Section 0 - Food and Live Animals

- 1 - Beverages and Tobacco
- 2 - Crude Materials, inedible, except fuel
- 3 - Mineral Fuels, Lubricants and Related Materials
- 4 - Animal and Vegetable Oils and Fats
- 5 - Chemicals
- 6 - Manufactured Goods classified chiefly by Material
- 7 - Machinery and Transport Equipment
- 8 - Miscellaneous manufactured articles
- 9 - Miscellaneous Transactions and Commodities, not elsewhere specified.

### 2. SYSTEM OF TRADE

The "SPECIAL TRADE" system has been used in the tabulations. That is, import figures include all goods cleared ex-warehouses for domestic consumption and they exclude all goods which remain in the custody of customs in bonded warehouses. Goods cleared ex-warehouses for exports have also been included. Thus there is an appropriation to General trade.

Exports are divided into exports of domestic produce and re-exports shown separately. The latter are goods exported essentially in the same condition in which they were imported. Exports of domestic produce include previously imported goods which have been transformed by processing in this Territory.

Except in the case of goods cleared ex-warehouses goods in transit through the State are not included in the trade figures.

3. QUANTITIES AND VALUES

Generally, all quantities and values have been based upon the declaration of importers and exporters on the customs documents which are subject to verification by Customs officials.

All values are shown in East Caribbean Currency Dollars.

C.I.F. Value is used in respect of all imports. This valuation is by definition "the price which an importer would give for the goods on a purchase in the open market, if the goods were delivered to him at the port of importation, freight, insurance, commission and all other costs, charges and expenses incidental to the purchase and delivery at that port (Except any duties of customs) having been paid". (Sec. 15 (2) (a) of Chapter 282 of the Laws of Dominica 1961).

F.O.B. Value is used in respect of exports. This is defined as the value at which goods were sold by the exporter, and includes all local charges to the exporting vessel or aircraft. Sea and air freight and marine and air insurance are not included and cash and trade discounts to the purchaser abroad are deducted. It includes local customs charges and other taxes in the State.

This F.O.B. Value is at best an estimate for the following reasons:-

- (a) Particulars of values of goods shipped on consignment are not available at the time of shipment. Reasonable estimates, therefore, have had to be made until more reliable figures could be used.
- (b) There have been valuable exports of goods shipped from certain subsidiary Companies to Principals abroad. Since there is the possibility of under-valuation by those firms, the values used have been estimates of F.O.B. values based on (i) world market prices where available and (ii) values of allied commodities exported.

Articles exported from the territory for repair are not valued on exportation and only the cost of repairs (plus any other appropriate charges) are shown on re-importation.

111. SPECIAL NOTES ON GEOGRAPHICAL BREAKDOWN

For Tables 8-11 "Other Caribbean Countries" means all Caribbean island territories, except member states of CARICOM, which are listed in Tables 12 and 13. Bermuda, the Bahamas and the French, Dutch and American possessions in the Caribbean are included in this category as well.

The EEC comprises U.K., Netherlands, West Germany, Denmark, France, Italy, Eire, Belgium and Luxembourg.

"Europe other than EEC" means all other territories in Continental Europe, except the part of Turkey to the West of the Bosporus Strait. The whole of the USSR, Iceland, Malta, Crete, the Atlantic Portuguese possessions, Madeira and the Azores, and the Spanish Atlantic possession, the Canary Islands, are also included in this category.

"Latin America" means Continental Latin America (from Mexico southwards), except Guyana and Belize. The Falkland Islands are included.

"Africa" means the African Continent (bordering to Asia by the Suez Canal, but including all of Egypt). Island territories off the west coast (Fernando Poo, Sao Tome, Cape Verde Islands etc.), and islands off East Africa (Madagascar, Mauritius, Réunion, the Seychelles, Comoro Islands etc.) are included as well.

"Asia" means the whole Asian Continent (bordering to Africa by the border between Egypt and Israel and to Europe by the border between Turkey on one side and Bulgaria and Greece on the other). The Asian part of the USSR is excluded. Japan, Taiwan, Indonesia, the Philippines, Sri Lanka, Papua New Guinea, North Borneo, Cyprus and the Chinese island of Hainan are included.

"Other" means territories in Oceania other than Australia and New Zealand. Mostly Pacific islands such as Fiji, Tahiti, Samoa Island, the New Hebrides, New Caledonia and the U.S. Trust Territories.
