I N T R O D U C T I O N

The Annual Overseas Trade Report 1979 contains certain additions in the Summary Tables compared with the 1978 Report. Unit Value and Volume Indices are now available up till 1978, and the Trade Index numbers in general have been analysed from 1970 to 1978 by S.I.T.C. (R) Sections.

The figures published in this report have been fully revised and should be regarded as final.

The Government of Dominica is deeply grateful to the Printing Unit of the UNDP/ECCM Project for Development of Statistical Services in the Eastern Caribbean for the services rendered in printing this report. Mention should also be made of the Comptroller of Customs and his staff, as well as the Dominica Computer Centre, without whose constant co-operation this report would not have come into being.

The various commercial houses, other organisations and individual businessmen are to be highly commended for their co-operation in answering queries brought to their attention.

Notification of errors and/or suggestions for the improvement of future reports will be appreciated.

I. EXPLANATORY NOTES

1. SYSTEM OF TRADE CLASSIFICATION

The Standard International Trade Classification (Revised) issued by the Statistical Office of the United Nations as statistical papers Series M. No. 34 of 1961, has been adopted since 1973 with suitable modifications for the classification of all merchandise. The main sections of the SITC (R) are:-

- Section 0 - Food and Live Animals
- 1 - Beverages and Tobacco
 - 2 - Crude Materials, inedible except fuel
 - 3 - Mineral Fuels, Lubricants and related materials
 - 4 - Animals and Vegetable Oils and Fats
 - 5 - Chemicals
 - 6 - Manufactured Goods classified chiefly by material
 - 7 - Machinery and Transport Equipment
 - 8 - Miscellaneous Manufactured Articles
 - 9 - Miscellaneous Transactions and Commodities, not elsewhere specified.

2. SYSTEM OF TRADE

The "SPECIAL TRADE" system has been used in the tabulations. That is, import figures include all goods cleared ex-warehouses for domestic consumption and they exclude all goods which remain in the custody of customs in bonded warehouses. Goods cleared ex-warehouses for exports have also been included. Thus there is an appropriation to General Trade.

Exports are divided into exports of domestic produce and re-exports shown separately. The latter are goods exported essentially in the same condition in which they were imported. Exports of domestic produce include previously imported goods which have been transformed by processing in this Territory.

Except in the case of goods cleared ex-warehouses, goods in transit through the State are not included in the trade figures.

3. QUANTITIES AND VALUES

Generally, all quantities and values have been based upon the declaration of importers and exporters on the customs documents which are subject to verification by Customs Officials.

All values are shown in East Caribbean Currency Dollars.

C.I.F. Value is used in respect of all imports. This valuation is by definition "the price which an importer would give for the goods on a purchase in the open market, if the goods were delivered to him at the port of importation, freight, insurance, commission and all other costs, charges and expenses incidental to the purchase and delivery at that port (except any duties of customs) having been paid". (Sec. 15 (2) (a) of Chapter 282 of the Laws of Dominica 1961).

F.O.B. Value is used in respect of exports. This is defined as the Value at which goods were sold by the exporter, and includes all local charges to the exporting vessel or aircraft. Sea and air freight and marine and air insurance are not included and cash and trade discounts to the purchaser abroad are deducted. It includes local customs charges and other taxes in the State.

This F.O.B. Value is at best an estimate for the following reasons:-

- (a) Particulars of values of goods shipped on consignment are not available at the time of shipment.
Reasonable estimates, therefore, have had to be made until more reliable figures could be used.
- (b) There have been valuable exports of goods shipped from certain subsidiary Companies to Principal abroad.
Since there is the possibility of undervaluation by those firms, the values used have been estimates of F.O.B. values based on (i) world market prices where available and (ii) values of allied commodities exported.

Articles exported from the territory for repair are not valued on exportation and only the cost of repairs (plus any other appropriate charges) are shown on re-importation.

4. DEFINITION OF COUNTRIES AND AREAS

The statistics reported refer to the territory of the Commonwealth of Dominica.

Imports are ascribed to the countries/^{of} origin of the goods. The country of origin is defined as the country in which the goods were wholly produced, or manufactured, or the country in which any final operation altered, to any appreciable extent, the character, composition and value of partly manufactured goods imported into that country. When the country of origin cannot be ascertained, the "country of consignment" is used, that is, the country from which the goods were despatched.

Exports are ascribed to the countries of final destination, when known, or alternatively they are ascribed to the countries of last known destination. These are not necessarily the countries of final consumption.

The definition of countries and areas are as given in a draft countries list prepared by the United Nations Statistical Office (but see also special notes on geographical breakdown).

5. EXCLUSIONS

The following items have been excluded from the Trade Statistics:-

- (a) Ship's stores and bunkers supplied to locally registered craft.
- (b) Gold coin and bullion, issued coinage and issued bank notes.
- (c) Goods on lease such as cinematographic films.
- (d) Goods on loan such as samples for exhibition or study.
- (e) Gifts from UNICEF and similar Organizations.
- (f) Parcel Post items of imports of less than \$5.00 strongly suspected as gifts.

6. PERIOD COVERED

The figures of imports and exports represent totals shown on all customs documents brought to account during the calendar year 1st January to 31st December, 1979. These do not necessarily include only goods or all goods which arrived into or were shipped from this territory during the period. This definition although it may on occasions result in apparent discrepancies between the customs figures of imports and exports and figures obtained from other sources, must for various practical reasons be maintained.

7. SYMBOLS USED

The following symbols and abbreviations have been used in the tabulations:-

-	NIL
0 or 0.0	Less than half final digit
...	Not Available
N.E.S.	Not elsewhere specified
N.E.C.	Not elsewhere classified
No.	Number
Pr.	Pair

III. SPECIAL NOTES ON GEOGRAPHICAL BREAKDOWN

For Tables 10 - 13 "Other Caribbean Countries" means all Caribbean island territories, except member states of CARICOM, which are listed in tables 14 - 15. Bermuda, the Bahamas and the French, Dutch and American possessions in the Caribbean are included in this category as well.

The EEC comprises U.K., Netherlands, West Germany, Denmark, France, Italy, Eire, Belgium and Luxembourg.

"Europe other than EEC" means all other territories in Continental Europe, except the part of Turkey to the West of the Bosporus Strait. The whole of the USSR, Iceland, Malta, Crete, the Atlantic Portuguese possessions, Madeira and the Azores, and the Spanish Atlantic possession, the Canary Islands, are also included in this category.

"Latin America" means Continental Latin America (from Mexico southwards), except Guyana and Belize. The Falkland Islands are included.

"Africa" means the African Continent (bordering to Asia by the Suez Canal, but including all of Egypt). Island territories off the West coast (Fernando Poo, Sao Tomé, Cape Verde Islands etc.), and islands off East Africa (Madagascar, Mauritius, Réunion, the Seychelles, Comoro Islands etc.) are included as well.

"Asia" means the whole Asian Continent (bordering to Africa by the border between Egypt and Israel and to Europe by the border between Turkey on one side and Bulgaria and Greece on the other). The Asian part of the USSR is excluded. Japan, Taiwan, Indonesia, the Philippines, Sri Lanka, Papua New Guinea, North Borneo, Cyprus and the Chinese island of Hainan are included.

"Other" means territories in Oceania other than Australia and New Zealand. Mostly Pacific islands such as Fiji, Tahiti, Samoa Island, the New Hebrides, New Caledonia and the U.S. Trust Territories.
